Field Safety Information

1. Coaches must walk the fields and surrounding area prior to use. A potential hazard must be reported to players, opposing team, and officials. Report hazards within 24 hours to the Parks and Recreation Director (978) 692-5532 and to League Officials.
2. Serious injury that requires a doctor, hospital, or ambulance shall be reported in writing to the Parks and Recreation Department within 24-48 hours. Report forms are available from the department and on-line
3. **Closed fields may not be used for any reason. Use of a closed field jeopardizes the safety of all and will require additional maintenance to restore the field to safe conditions.**
4. A field that is saturated (water logged and feels like walking on a wet sponge) or has standing water in the playing area should be closed by coaches to avoid damage. If a footstep leaves an impression on the turf, or if the grass is removed easily with a cleat, the field is considered wet and should be close until conditions change.
5. Frost on the field – field should not be opened until frost has melted.
6. Fields should be closed under any of the following conditions: lightening, heavy rain/downpour of rain, thunder, or severe weather warnings, other conditions that present safety concerns for users/spectators.
7. Field is frozen = field closed
8. Field should be closed when the footing is unsure and or slippery.
9. Coaches and leagues are not allowed to do any maintenance work on wet fields. Do not brush water off water/clay onto grass areas. This creates a major and unnecessary problem maintaining the grass around the base areas. The clay settles in the grass creating an uneven base path or lip resulting in a potential tripping hazard.
10. Soft toss/batting practice and/or kicking against fences is not allowed.
11. Trash and Recycling
Upon completion of a game or practice, the group/team coaches are responsible for the proper removal and disposal of trash associated with their use of the property. All fields and bench areas should be left clean at the end of each use.
12. Blocking of Emergency Access entrances is strictly prohibited.
13. COMMUNITY FIELDS AT NUTTING ROAD
 - Due to the nature of synthetic turf and its recovery ability the Community Fields at Nutting Road may stay open when the grass fields are closed. They will be closed if snow covered and permit holders are not allowed to remove snow from any field. The field is closed with standing water until it has drained, and surface has dried.
 - No beverages /drinks other than plain water allowed on the synthetic turf fields
 - No food is allowed on the synthetic turf fields
 - No dogs allowed on synthetic turf
 - No chewing gum or similar substance is allowed as gum may damage the synthetic turf.
 - No staking of any object into the synthetic turf.
14. All the recreation fields are located in residential areas. Please be respectful of neighbors and the neighborhood.
